Subject: Delinquent Discharge  
Self-Monitoring Report

Dear Sir:

The Region II office of the U.S. Environmental Protection Agency (EPA) has issued your organization the above-numbered National Pollutant Discharge Elimination System (NPDES) permit pursuant to section 402 of the Federal Water Pollution Control Act Amendments of 1972 (FWPCA) for the discharge of pollutants into the waters of the Region (33U.S.C.1342).

Pursuant to the terms of this permit, your organization was to have performed certain self-monitoring operations and reported the results to this office and to the local environmental agencies indicated in the permit. We have not received the report for the reporting period ending JUN 30 1975. Your failure to send this report on time is a violation of your NPDES permit. You are hereby officially requested to send in this report to the undersigned and to your local agencies within two weeks of the date of this letter.

Failure to comply with the requirements of your permit and with this letter can subject your organization and its officers to the penalties provided in section 309 of the FWPCA (33U.S.C.1319). These penalties are both civil and criminal in nature and include fines of up to \$25,000.00 per day of violation. I strongly urge you and the other responsible officials of your organization to become familiar with the requirements of the permit.

Sincerely yours,

*Richard A. Baker*
